Cable USB - USB-C Green Cell GC Ray, 200cm, green LED, with Cable USB - USB-C Green Cell GC Ray, 200cm, green LED, with Ultra Charge, QC 3.0

## Green Cell GC Ray USB-A/USB-C cable

The 200 cm long GC Ray USB-A/USB-C cable allows instant charging and data transfer. It is distinguished by its green backlight and support for Apple's 2.4A fast charging technology. The product is made of durable materials, which translates into high durability.

## Fast power and data transfer

Thanks to the Quick Charge 3.0, GC Ultra Charge and Samsung AFC fast charging protocols, the Green Cell cable will renew your smartphone's energy surprisingly quickly. What's more, it enables data transfer speeds of 480 Mbps. You no longer have to wait long for your files to be transferred to your chosen device.

## Modern design

What sets the GC Rey cable apart is the soft green backlighting of the USB-C plug. Thanks to it, you can easily locate your phone, even in unfavourable lighting conditions. What's more, the length of the cable is as long as 200 cm - so you can use your smartphone comfortably, even when it is plugged in for charging.

## Wide compatibility

The GC Ray is compatible with devices equipped with a USB-C port. Whether you're using the latest smartphones such as the Samsung
