

## Superfire bike flashlight BL11, USB

Superfire bike flashlight BL11, USB

Ref: 6956362995093

### Bike torch Superfire BL11

A bicycle torch is an essential piece of equipment for every bicycle! The BL11 provides stable illumination with a maximum range of 120 m. It offers 4 light modes and its installation will not be a problem for you. Thanks to its robust and waterproof construction, it will serve you well for a long time. You can also use it as a normal torch.

### A reliable source of light

Do you often cycle after dark? Equip yourself with a bicycle torch and ensure your safety on the road! The torch generates eye-safe light with a range of up to 120 m, making it ideal for lighting your way. It has been designed to avoid blinding pedestrians and drivers of other vehicles. This not only increases your visibility, but also prevents you from endangering other road users!

### Adjust the lighting to your needs

Choose from the available modes to adapt the lighting to your preferences or the road conditions! The BL11 offers 4 lighting modes, which you can change freely using the dedicated button. There is a strong and light light, a strobe light and also an SOS light for emergency situations.

### Up to 3 hours of operation

Now you can go on a long bike trip without worrying about your torch suddenly running out of power! The robust 2000 mAh battery provides up to 3 hours of operation. It will take you around 3 hours to renew the energy, and you will be informed of the charging status by the built-in light indicator.

#### Robust design

The Superfire bike torch will surprise you with its extremely lightweight and handy design. Its weight is less than 115g and you can easily fit it in your bag or backpack. The torch is IP44 waterproof and will withstand drops from a height of 1 metre. Mounting the torch will not be a problem for you. In just a few moments, you can mount it on the handlebars of your bike using the silicone strap.
