

## Vacuum cleaner Deerma DX700 (silver)

Vacuum cleaner Deerma DX700 (silver)

Ref: 6955578033858

### Deerma DX700 - One Hoover - many possibilities

If you are looking for a multifunctional hoover for special tasks, the Deerma DX 700 will meet your expectations. Ergonomic design, high performance, lots of application possibilities - see what else can surprise you!

### Bet on mobility

The lightweight Deerma DX 700 hoover is easy to adapt to your needs. You can use it both as a small handheld hoover - for example for cleaning furniture or upholstery - and as a classic vertical floor cleaner. Its light weight of just 2200 g also makes cleaning easier. This makes it easy to move it between rooms or lift it up to collect dust and cobwebs from the ceiling. With the Deerma DX 700 you can reach almost anywhere - and you can also use a practical 4.5m long cable. Soon there won't be a single dusty place in your home!

### Enjoy flexibility

To make cleaning even easier for you, we have equipped the hoover with three interchangeable brushes. Each brush is perfect for a wide variety of surfaces and will help you to create the perfect order. See what you can achieve with their help!

### Floor brush

With a large brush, you can vacuum floors quickly and effectively. It is thin and rotatable, so you can easily bring it into hard-to-reach

places as well. It helps you get rid of dust from under the bed or between the legs of chairs - the clever design of the brush allows you to guide it as you wish.

#### Dustbrush

A small dustbrush allows you to thoroughly clean smaller surfaces. It can be used to clean shelves, worktops and furniture such as sofas and armchairs. Dust, the hair of your beloved pet, crumbs - none, even the most stubborn dirt can hide from it.

#### Crevice brush

You can reach narrow gaps and nooks and crannies with a slotted brush. It will squeeze into almost every corner and remove debris effectively. Space between furniture, gaps in sofas and armchairs and even the keyboard - cleaning these places will no longer be a challenge!

#### Choose triple protection

Stwórz czyste, wolne od zanieczyszczeń i alergenów środowisko z pomocą systemu potrójnej filtracji. Deerma DX 700 skutecznie izoluje brud, włosy, kurz oraz sierść i dba o Twoje zdrowie! Filtr rotacyjny, w który wyposażone jest urządzenie, umożliwia skuteczne zapobieganie ponownemu osadzeniu się zanieczyszczeń na powierzchniach. Dzięki temu praktycznemu rozwiązaniu możesz cieszyć się długotrwałą czystością i przyjaznym dla zdrowia otoczeniem!

#### Efficient and comfortable cleaning

The 600 W motor power and 15000 Pa suction power ensure that the hoover works efficiently and effectively - no dust particles, even the most stubborn ones, will win with it. The 0.8 litre dirt container can be easily emptied and cleaned to reduce contact with dirt. What makes the unit so special is its low noise level - it does not exceed 75 dB. Say goodbye to inefficient, difficult to handle and noisy hoovers - the Deerma DX 700 will make cleaning quick and pleasant.

#### Design that works everywhere

The simple, minimalist design of the hoover makes it not only practical but also a stylish addition to your home. The silver colour of the device will fit perfectly into the character of any interior. The possibility of vertical storage will also save space. All this makes the Deerma DX 700 the perfect choice for your home too.
