Princess XXL Grill Plate

If you are a barbecue lover and are looking for the perfect tool for preparing delicious dishes, the Princess proposal will certainly meet your expectations. The thickness of the grill plate is 4 mm, so it is distinguished by its resistance to deformation. Power reaching up to 2,500 watts, adjustable thermostat and non-slip feet ensure great functionality and convenience of use, while non-stick coatings make cleaning and maintenance easy. A paddle and spatulas are included.

Grill like a pro

Invite your loved ones over for a meal together and enjoy the delightful taste of grilled meat, vegetables, fish and more! The surface of the plate is 600 x 360 mm - enough to prepare food for several people. Operation of the device is simple and intuitive. Thanks to the power of 2500 watts, the hob heats up in no time. Forget about the long wait - now you can quickly and effortlessly prepare food like a real chef!

Thoughtful design

The 2-layer coating prevents food residue from sticking and makes it comfortable to use, and the non-slip feet guarantee stability while grilling. The cord length is 1.6 meters - so you can freely place the hob on the table. The indicator light increases the safety of use. The device is made of aluminum and enriched with waterproof parts, making it highly durable.
