

Cable USB-micro USB Remax Flushing, RC-C001, 1m (black)

Ref: 6954851224983

Cable USB-micro USB Remax Flushing, RC-C001, 1m (black)

Cable USB-micro USB Remax Flushing, RC-C001, 1m (black)

With the Remax Flushing cable you can quickly charge your phone - the product provides up to 2.4 A. Aluminium alloy and TPE are used in its manufacture, which translates into its durability and resistance to damage. In addition, its length of 1 m allows you to use your devices comfortably while charging. However, it doesn't stop there - the Remax Flushing cable also allows fast file transfer between devices,

Charging at up to 2.4 A

The Remax Flushing cable allows you to quickly charge your mobile devices with up to 2.4 A. So you can charge your smartphone or wireless headphones in no time! This is ideal for people who value their time and don't want to wait too long for their equipment to be ready for use.

A cable that will last a long time

Opt for the highest quality workmanship. The use of aluminium alloy and TPE prolongs the life of the cable and protects it from mechanical damage. What's more, the high-quality cable and reinforced connectors guarantee a stable connection and minimise the risk of interrupted charging or data transfer.
