Car charger 2x USB, Remax RCC217, 2,4A (black)

2x USB car charger, REMAX RCC217, 2.4A (black)

Do you want to make sure that your equipment will always be ready for use even during long car trips? With the Remax car charger you can rest assured! With its help you will be able to quickly renew the energy of up to two devices at the same time. What's more, thanks to its special design, this charger ensures stable charging even while driving on a bumpy road.

Fast charging

Remax RCC217 car charger is designed with efficiency and time saving in mind. Thanks to advanced technologies, it provides fast charging for your devices while keeping them safe. The charging speed will depend on the energy saturation level, which protects your devices from overheating and possible damage. Using the Remax RCC217 charger, you can be sure that your devices will be charged at the optimal time, while ensuring long-lasting and safe use.

Thoughtful design

The Remax RCC217 car charger stands out not only for its functionality, but also for its carefully engineered design. Made of sturdy materials, it is wear-resistant and durable, resulting in long-lasting and reliable performance. The device features high compatibility, allowing it to charge both phones and tablets, making it a universal solution for different needs. In addition, thanks to its special design, the charger ensures stable charging even on a bumpy road, eliminating the risk of accidental disconnection of devices while traveling.

Safety

Remax RCC217 prioritizes the protection of your devices and safety during use. Made of flame-retardant materials, the charger minimizes the risk of fire and associated hazards. In addition, the device controls the temperature during charging to prevent your devices from overheating. With these advanced safety features, you can rest assured that the Remax RCC217 takes care of your devices and protects them from possible damage during charging.

Adapted to different vehicles

The car charger is designed for a wide range of users and different types of vehicles. With a universal input voltage in the range of 12V~24V, it is perfect for both cars and larger vehicles such as SUVs and trucks. No matter what mode of transportation you use, you can rest assured that the Remax device will provide power to your devices when you need it.
