TWS Remax Stereo Wireless Headphones (black)

The TWS Remax Stereo headphones allow you to listen to music, watch movies and make phone calls with ease. Thanks to Bluetooth 5.0 technology, you can enjoy a reliable connection, and the powerful battery provides up to 5 hours of continuous use. IPX4-level waterproofing and solid construction make the equipment extremely durable. Touch panels allow convenient operation, and an easy-to-read display provides information on the device's charge level.

Delightful sound

Let the music take you on an unforgettable journey. Remax Stereo headphones guarantee the highest quality sound. With an impedance of 32Ω and a speaker power of 0.3 watts, they provide precise and clear sound that will enrich your listening experience.

Reliable connection

The TWS Remax Stereo supports the latest Bluetooth 5.0 technology for fast, stable and wireless transmission. You can enjoy the sound of your favorite songs even when you are up to 10 meters away from the sound source. Say goodbye to limitations!

Always ready to go

A powerful battery means you can delight in your favorite tunes or make phone calls for 3 to 5 hours. In standby mode, the equipment

lasts up to 100 hours. What's more, Remax Stereo are distinguished by their IPX4 waterproof rating, so you can use them during intense workouts and on rainy days.

Touch control and easy-to-read display

When designing the Remax headphones, the focus was on user convenience. The touch-sensitive panels allow for easy and intuitive operation, and the easy-to-read LED display shows real-time battery status.

Hassle-free conversations

The HD microphone built into the headphones allows you to make phone calls comfortably. You can be sure that your caller will hear every word you say!
