Safety Hammer Remax, RM-C03 Window-breaking+Safety belt cutting

Safety Hammer Remax, RM-C03 Window-breaking+Safety belt cutting

This product is an extremely useful tool that can prove indispensable in emergency situations. The compact and easy-to-use gadget combines the function of a windshield smasher and seatbelt cutter, making it an ideal tool for drivers, paramedics, firefighters, police officers and other emergency services.

Reliable safety hammer

The hammer is equipped with a spring-loaded mechanism, the activation of which guarantees that the window will shatter instantly, making it possible to escape from the vehicle in case of an accident or when the door is locked. The sturdy spring generates a pressure force of 20 kg and is able to cope even with thick and tempered glass. What's more, it also works underwater!

Cut seat belts

The built-in stainless steel blade allows you to quickly cut the seat belts in case they can't be unbuckled the traditional way. The gadget is simple and convenient to use, so in an emergency you will be able to handle cutting the belt in no time.

Handy and elegant

Remax RM-C03 is an indispensable tool that can save your life in case of an emergency. It is a reliable and easy-to-use product that

should be in every car, providing users with a sense of safety and security in case of unforeseen situations.
