Phone / tablet rotary clip holder Remax, RM-C07 (white)

Remax clip-on holder, RM-C07 (white)

Free your hands and use the practical holder for your phone, tablet, or Nintendo Switch console. The product allows you to mount a device of 5-13 inches and adjust its position in 360°. What's more, with the help of a clip you will attach the holder to a table, providing your device with incredible stability. Watch movies, make video calls and move around freely!

For multiple uses

No matter what you are currently doing on your device - watching or broadcasting - you can create the perfect conditions for your activities. The mount consists of several adjustable segments that allow you to not only position your device vertically or horizontally, but also change its angle and height. So you can comfortably watch movies while lying in bed or conduct an online meeting at your desk.
