

Regulator napięcia Hobbywing 3A UBEC 2-6S LiPo

Ref: 6938994400107

Regulator napięcia Hobbywing 3A UBEC 2-6S LiPo

Hobbywing 3A UBEC 2-6S LiPo voltage regulator

A voltage regulator that changes the DC voltage of 5.5-26V to 5V or 6V (adjustable via jumper). It is designed to power the receiver and servos. It works well in model airplanes, cars or boats with electric or internal combustion engines. Subject of the sale is an outlet product due to the lack of original packaging. The regulator is fully operational.
