

Car mount Remax. RM-C66, for phone or tablet (black)

Ref: 6954851244455

Car mount Remax. RM-C66, for phone or tablet (black)

Remax car holder, RM-C66 for phone or tablet (black)

Are you a passenger in the back seat? Or are you going on a long car trip with your children? The seat-mounted car holder is a practical accessory that will give you convenient access to your phone without having to hold it in your hands. The sturdy clamps allow adjustment and are designed for phones and tablets in the size of 4.7-11 inches. You can adjust the position of your device 360° and enjoy complete comfort while traveling.

Stability in all conditions

Simply attach the RM-C66 holder to your seat headrest and clip your phone or tablet into it. The sturdy design ensures that your device will stay in place throughout your trip - regardless of the conditions. Now you can comfortably watch videos on your phone without using your hands. The holder will also allow you to occupy your small passengers with, for example, a story without worrying that the device will fall out of your hands and get damaged. This practical accessory will make many a trip more enjoyable.

Wide compatibility

The Remax RM-C66 mount is designed for phones and tablets in the size of 4.7-11 inches - you can easily adjust the adjustable mount to the required dimensions. What's more, the RM-C66 allows 360° rotation, which means you can easily position your device vertically or horizontally. The foldable arm will allow you to adjust the angle and distance from the user - your comfort is paramount!
