

## Wall charger Remax, RP-U16, USB (white)

Ref: 6954851229858

Wall charger Remax, RP-U16, USB (white)

Remax mains charger, RP-U16, USB (white)

Designed for QC 3.0 fast charging, this network charger from Remax guarantees protection against electrical hazards such as overheating, overcharging, and short circuit. It offers a universal USB port, so it stands out for its wide compatibility. It was created from high-quality materials, resistant to high temperatures. At the same time, it is lightweight and portable.

### Safe charging

The charger supports the QC 3.0 fast charging protocol. It guarantees stable voltage and power supply at a lower temperature, so you don't have to worry about short-circuiting, overcharging or overheating your devices. Shorter charging time has a positive effect on battery life, so by using Remax RP-U16 you take care of your equipment.
