Wall charger Remax, RP-U43, 4x USB, 3.4A (white)

Remax network charger, RP-U43, 4x USB, 3.4A (white)

The Remax RP-U43 is a dedicated fast charging network charger that offers up to 4 USB ports with an output of 3.4A. It is distinguished by its compact design, so you can conveniently pack it and protect it from damage during transport. A smart chip is responsible for safe charging of your devices, protecting them from overcurrent, overcharging or short circuit. Bet on proven solutions!

Charge 4 devices simultaneously

The Remax charger offers up to 4 universal USB ports that will allow you to charge several devices at the same time. You no longer have to wait indefinitely for your devices to charge. The output current reaches 3.4 A, which means it won't take long to replenish your energy. Save time and space with the RP-U43 mains charger.

A range of safety features

The RP-U43 will allow you to charge a wide range of devices. An intelligent chip recognizes the type of connected equipment, so it automatically adjusts the charging power to it. This solution allows you to protect your batteries from short-circuiting, overcharging, overheating, etc.

Wide compatibility and compact design

The charger supports mains voltage in the range of 100-240V, so it will work well in outlets with different standards. What's more, its compact design allows you to conveniently stow the metal pins, so you can be sure that they won't get damaged in transit, for example. All this makes the Remax RP-U43 the perfect companion for any trip.
