

Dual wireless charger Cygnett 20W (black)

Ref: 0848116028750

Dual wireless charger Cygnett 20W (black)

Cygnett 20W dual wireless charger (black)

Get the ability to wirelessly charge up to 2 devices simultaneously. The Cygnett charger provides up to 20 W of power and intelligently regulates its operation depending on how many devices you place on it. It also stands out for its wide compatibility. You'll also find a power adapter with a long 1.5-meter cable included.

Fast charging

The charger allows you to quickly charge 2 devices at the same time. If you place 2 smartphones on it, it will provide up to 20 watts of power, which will be divided between them (10 W for each). This way you don't have to wait too long until your devices are ready to work again! When charging one device, the charger offers up to 10 W.

Compatible

Don't be afraid of compatibility problems. With the charger you can conveniently charge most devices that support Qi wireless charging. For example, the product will work great with iPhones, AirPods or Samsung Galaxy smartphones. What's more, you don't need to remove your phone from the case (up to 3 mm) to use it.

Comfort of use

Place the charger anywhere and freely use the devices placed on it. The kit also includes a DC power adapter, which is equipped with a long 1.5-meter cable. This gives you more freedom! Conveniently plug the charger in and place it on your desk, cabinet or table.
