

Set Transmitter FlySky NB4 + receiver FGR4S

Set Transmitter FlySky NB4 + receiver FGR4S

Ref: 5907489600958

FlySky NB4 transmitter + FGR4S receiver set

The FlySky NB4 transmitter is designed for remote-controlled cars and boats. It supports the AFHDS 3 protocol, which provides high responsiveness and a latency of just 3 ms. It is equipped with a 3.5-inch TFT display and an ergonomic steering wheel, the position of which can be adjusted by 180°. An additional advantage of the device is a special base, which provides a working time of up to 10 hours and can act as a powerbank. The set also includes the FGR4S receiver.

Comfortable to use steering wheel

Enjoy greater comfort when using the transmitter. The device is equipped with an ergonomic steering wheel that is very pleasant to the touch and comfortable to use. You can also adjust its position within 180°. Adjust it to make controlling your vehicle as easy as possible! The transmitter also offers a 3.5-inch TFT display with a clear user interface that will give you quick access to information and key parameters.

Long operating time

There are 2 power options available for the product. The device has a built-in rechargeable battery that will give you up to 4.5 hours of use when fully charged. Or you can use a special base, which provides up to 10 hours of working time and allows you to charge the transmitter. It will also work well as a powerbank. Don't be afraid that your equipment will refuse to serve you at the crucial moment of

the race!

Reliable wireless connection

Forget about signal problems. The NB4 transmitter supports the AFHDS 3 protocol, which allows you to enjoy a fast, stable and reliable connection. It guarantees high responsiveness and a latency of less than 3 ms. Don't let too poor transmission quality stand in your way to victory - take control and break another record!

Multiple applications

The NB4 transmitter is designed for controlling RC models such as cars and boats. It offers support for many simulators and games - no additional external USB dongle required. You'll also find the necessary accessories in the kit, including the FGR4S receiver.

Brand

FlySky

Name

Noble

Model

NB4

Color

Black

Channels

4, 6, 8 (optional software versions)

Frequency response

2.4 GHz

Transmission power

< 20 dBm

Wireless communication protocol

AFHDS3

Range

> 300 m (on the ground)

Channel resolution

4096

Battery

1S (4.2 V)* Lithium-polymer 4300 mAh battery + 18650 2600 mAh battery pack

Charging port

Micro USB

Charging time

Base: about 3 h;

Battery in holder: about 3.5 h;

Operating time

Approx. 10 h (with base) / approx. 4.5 h (without base)

Low voltage alert

< 3,65 V

Antenna type

One built-in antenna

Display

3.5-inch, HVGA, TFT, 320x480

Compatibility with simulators

USB

Data port

Micro USB

Temperature range

From -10°C to 60°C

Humidity range

20-95%

Online updates

Yes

Dimensions

129 x 114 x 190 mm

Weight

520 g

Recommended RC models

Cars, boats
