

Safety Carrying Case PGYTECH for DJI Mini 3 Pro/Mini 3

Ref: 6970801339880

Safety Carrying Case PGYTECH for DJI Mini 3 Pro/Mini 3

PGYTECH waterproof case for DJI Mini 3 Pro/Mini 3

Take care of the safety of your drone. The P-40B-020 is dedicated to the DJI Mini 3 Pro/Mini 3 and will also hold the remote control, 3 batteries, filters and cables. The PGYTECH case is made of high-quality materials, so you can be sure that your equipment will not be damaged.

Capacious

PGYTECH case will accommodate the DJI Mini 3 Pro/Mini 3 and its accessories. You will successfully stow in it 3 batteries, charging hub, remote control, charger, filters, spare propellers, filters, cables, etc. This way you can store the combo version without having to detach the propellers and control stick.

Water-resistant

Use the P-40B-020 no matter what the conditions. The case is IP67 waterproof, so it can be safely submerged to a depth of 1 m without worrying about damaging your equipment.

Robust construction

The case is made of PP plastic, which can withstand temperatures ranging from -25°C to +60°C. Meanwhile, the premium EVA foam

interior and cavities are sized to fit the drone and its accessories, ensuring their protection and stability.

For the safety of your equipment

That's not the end of the P-40B-020's advantages, the PGYTECH case features a safety valve that equalizes the pressure difference. The ergonomic, non-slip handle is responsible for comfortable carrying and prevents the case from slipping out of your hand, and the solid latches protect against theft. In addition, the double padlock holes were created from stainless steel, which translates into their durability.
