BlitzWolf BW-V4 1080p LED beamer / projector, Wi-Fi + Bluetooth (black)

Ref: 5905316147027

BlitzWolf BW-V4 1080p projector / projector, Wi-Fi + Bluetooth (black)

If you're looking for a projector that provides not only excellent picture and sound quality, but also the freedom to watch a variety of content, BlitzWolf's proposal is sure to meet your expectations. The BW-V4 features 1080p resolution and offers automatic keystone correction and autofocus. The built-in 5W speaker provides crystal clear sound. The device supports Dual Bluetooth 5.0, WiFi 2.4G/5G connectivity and provides a 300" diagonal image.

A picture that impresses

The BW-V4 offers Full HD 1920 x 1080p resolution, which equates to a highly detailed and clear picture. The device also supports 16.7 million colors, making the projected images very realistic and fully reproducing the color gamut. As a result, the BlitzWolf projector is ideal not only for home use, but also for business presentations or conferences. In addition, the built-in 5-watt speaker allows for audio playback without the need to connect additional audio equipment.

Perfect for any occasion

Transform any place into a movie theater. With the BW-V4 projector, you can project 50" to 300" diagonal images from a distance of 1.5 to 6 meters. This makes the device perfect for both small and large rooms. Also noteworthy is the automatic keystone correction function, which allows you to quickly correct errors resulting from improper positioning of the projector.

Compatible with a wide range of devices

The BlitzWolf projector has a number of ports that make it compatible with most devices. An AV input allows you to connect video devices such as DVD players, VCRs and video cameras. A headphone jack allows you to connect headphones or external speakers. The device also has two HDMI ports so you can successfully connect laptops or gaming consoles. The BW-V4 is also equipped with a USB port and AC input.

Reliable operation

Forget about connection problems! The BW-V4 projector supports 2.4G/5G WiFi connectivity, ensuring reliable and stable transmission. What's more, Dual Bluetooth 5.0 technology allows the projector to connect with 2 devices simultaneously.

Remote control included

A remote control is included, which allows you to conveniently and intuitively manage the projector's operation from a distance. The remote control features keystone correction and focus buttons, allowing you to quickly adjust the image to suit your current needs.

Included:

- Projector
- Remote control
- Power cord
- HDMI cable
- AV cable
