

Monitor Mobile Pixels Geminos 24"

Monitor Mobile Pixels Geminos 24"

Ref: 850001446884

Mobile Pixels Geminos 24" monitor

Mobile Pixels presents the innovative Geminos monitor, which will provide you with exceptional working comfort. This model consists of two screens of 24 inches each, which together create a perfect workspace with 1080P resolution. The monitor provides fantastic image quality and offers a variety of connectors to make your work easier. It is compatible with a wide range of devices and systems, so you can use it for both computer work and entertainment such as a console.

Phenomenal image quality

The monitor offers exceptional image quality thanks to a 24" IPS matrix on each screen. LED backlighting, exceptional 6-bit color depth and 97% coverage of the sRGB color gamut guarantee natural and vivid colors, while the 14 ms response time, 89° viewing angle and 1000:1 contrast ratio ensure smooth and detailed images. A brightness of 250 nits and a refresh rate of 60 Hz guarantee a comfortable and smooth user experience.

Comfortable in all conditions

The screen's finish is anti-glare and matte, which minimizes the effects of glare and light scattering, guaranteeing excellent images even in harsh lighting conditions. What's more, the adjustability of the screens will allow you to work comfortably whether sitting or standing! The top monitor moves in an up-and-down line, while you can slide the bottom monitor forward and backward. With Geminos, you will

create the perfect work environment tailored to you!

Wide availability of ports

The monitor is equipped with a variety of connectors and ports, including two USB-A, two USB-C, two HDMI, audio output, Ethernet and TF/SD slots. This makes Geminos suitable for both home and work, allowing you to easily connect various devices and expand the capabilities of your workstation. In addition, the monitor has a camera that you adjust within 15°, as well as built-in speakers, so you can have casual online conversations.

Efficient and ergonomic

The monitor is energy efficient and consumes only 35W of power. It's ideal for those looking for a functional monitor that meets their needs both in terms of image quality and work convenience. The monitor's ergonomic design allows you to make the most of your desk space, while increasing your workspace.

Compatible with most devices

The Geminos Mobile Pixels monitor features wide compatibility. It works with popular operating systems such as Mac, Windows and Linux, allowing seamless connection to a variety of computers and devices and allowing you to easily expand your workspace and increase productivity on the go or at home. Geminos also work with gaming consoles, so you can enjoy a dual-screen experience while entertaining. Mobile Pixels Geminos is a versatile solution that will satisfy both professional and entertainment needs.
