

CPU active cooling Darkflash Darkair LED (heatsink + fan 120)

CPU active cooling Darkflash Darkair LED (heatsink + fan 120x120) black

Ref: 4710343791126

Darkflash Darkair LED active CPU cooler (heatsink + fan 120x120) black

Provide your CPU with optimal working conditions. The Darkflash Darkair LED active cooling guarantees efficient cooling and heat dissipation and optimises this process in real time. It also features LED backlighting, giving your hardware configuration a modern touch.

Performance first and foremost

The design of the unit has been thought out to achieve the highest possible efficiency. The copper base fits perfectly to the processor to achieve high thermal conductivity. The cooling is also equipped with 4 heat pipes, responsible for even, efficient heat dissipation. What's more, the PWM function controls the speed of the fans in real time - optimising their operation.

User-friendly

Don't be afraid of problems with the installation of the cooler. The product is user-friendly and installation is relatively simple. The device is compatible with Intel and AMD platforms - sure to work well with your hardware.

The kit includes

Radiator

Fan

Intel & AMD installation kit

Thermal conductive paste

Mounting screws

Manufacturer

Darkflash

Model

Darkair LED

Colour

Black

Cooling type

Active

Number of fans

1

Fan speed

1600 RPM

Maximum noise level

29 dBA

Service life

30000 h

Supply voltage

12 V

Connector

4 Pin

Bearing type

Hydraulic Bearing

Illumination

LED

Number of heat pipes

4

Compatibility

Intel: LGA 115x / 1366 / 17xx

AMD: AM4/FM2 / FM1 / AM3+ / AM3 / AM2+ / AM2

Fan size

120x120x25 mm

Dimensions

121.7 x 156.85 x 45.7 mm

Weight

300 g

Heatsink material

Copper + Aluminium

TDP

160W

Price:

Before: € 23.001

Now: € 21.50
