Sonic toothbrush with head set and case FairyWill FW-508 (pink)

FairyWill sonic toothbrush with tip set and case FW-508 (pink)

Take care of your oral hygiene and impress with a beautiful smile. The ADA-approved FairyWill FW-508 sonic toothbrush operates at 40,000 revolutions per minute and lets you choose from 5 modes. It also offers a smart 2-minute timer and is IPX7 waterproof. It stands out for its long run time, and after about 4 hours the device will be fully charged. The set includes 8 interchangeable brush tips and a case for convenient storage and transportation.

Thorough cleaning

The FW-508 sonic toothbrush effectively eliminates even the most stubborn dirt and also easily reaches areas that ordinary toothbrushes can't reach. High-frequency vibrations ensure thorough yet fast cleaning. All this makes it easy to get rid of bacteria, food residue and other contaminants with FairyWill.

Smart timer

You don't have to keep an eye on your brushing time - the FW-508 toothbrush will take care of it for you! The device is equipped with a smart timer, which every 30 seconds with a short pause reminds you to change the brushed area. After 2 minutes, the device will automatically turn off. This way you can be sure to brush your teeth for as long as you need!

5 modes of operation

The toothbrush is designed to meet the diverse needs of users. It offers up to 5 modes, among which you are sure to find the perfect one for you. Polish allows you to polish your teeth, and White whitens them. Massage provides a gentle gum massage. Clean will be great for everyday use - it provides thorough, effective cleaning. Sensitive will be suitable for people who have sensitive teeth.

IPX7 water resistance

Brush your teeth in the bath or shower without worry. The toothbrush is distinguished by its IPX7 water resistance - even if you splash it, nothing bad will happen! You can also wash the device under running water. Take advantage of this opportunity to keep it in excellent condition for a long time and avoid the proliferation of harmful germs.

Interchangeable tips included

The set includes 8 interchangeable toothbrush tips - you can keep them as a spare or share them with a family member of your choice. The DuPont W-shaped nylon bristles fit perfectly against your teeth and allow you to thoroughly clean even hard-to-reach areas. To enjoy the optimal performance of your toothbrush, you should replace the tips every 3 months. However, you don't have to remember to do this - after a certain period of time, the special blue bristles will begin to fade to remind you.

Long working time

Do not be afraid of having to charge the toothbrush too often. To fully charge it, about 4 hours is enough. A fully charged device can serve you for about 30 days. The long working time of the toothbrush, combined with its compact size, light weight, USB charging and 110-240V compatibility, means you can easily use it on the go as well. It won't take up too much space in your suitcase and will provide convenience.
