Cable USB-C to Lightning Acefast C6-01, 30W, MFi, 1.2m (black)

Ref: 6974316281030

USB-C to Lightning cable Acefast C6-01, 1.2m (black)

Now you can charge your iPhone quickly and safely! The Acefast C6-01 cable offers charging with a maximum power of 30W and supports the PD protocol. It also allows data transfer speeds of up to 480 Mbps. It is officially MFi certified, so you can use it to freely charge all your Apple devices. It stands out for its exceptional durability, and advanced security features ensure a high level of safety.

Charge your phone in the blink of an eye

Charging your smartphone has never been faster! The Acefast cable allows you to charge with 30W of power. It also supports the Power Delivery fast charging protocol, so it only takes 30 minutes to renew your iPhone 13's power up to 50%! You don't have to worry about the safety of your phone either - the cable is MFi certified and the built-in chip intelligently adjusts the charging parameters to the connected device.

Robust design

The cable has passed a number of durability tests, so you can be sure that it will serve you well for a long time. The nylon braid perfectly protects the cable from mechanical damage and also prevents tangling. The C6-01 also has a small built-in display that gives you real-time information about the charging power.
