Cable USB-C to USB-C Acefast C5-03 angled, 100W, 2m (black)

USB-C to USB-C Acefast C5-03 angled cable, 100W, 2m (black)

Do you often play games on your phone? Are you looking for a durable cable that will charge your smartphone in no time? The Acefast C5-03 cable will be a real hit! It offers fast charging with a maximum power of up to 100 watts (5A/20V). It is compatible with a range of devices and, thanks to its clever design, you can use your phone freely while charging. It also provides a high level of safety.

Even faster charging

Don't waste time waiting for your phone to be ready for use again! The cable allows fast charging with up to 100 watts of power (5A/20V). This means that it only takes 30 minutes to renew the energy up to 45%. You can be sure that charging your device will certainly not take long!

Made for gamers

The Acefast cable was created with gaming enthusiasts in mind. Its connector has been bent at a 90° angle so that your smartphone fits perfectly in your hands and the cable does not block your movements during gameplay. What's more, the long 2-metre cable gives you almost unlimited freedom. Now you're free to play your favourite games, even while your device is charging!

Wide compatibility for different devices

Forget about compatibility problems! The C503 is compatible with many popular devices. It will work great for charging Samsung Galaxy S21, Samsung Galaxy S9 or Xiaomi Mi11 smartphones, among others. You will also use it to power your iPad Pro, Macbook Air M1, Nintendo Switch console or PS5.

No security worries

Conveniently charge your phone without worrying about damaging it. The built-in chip ensures a high level of safety, with a range of protections effectively protecting your device with overload, overvoltage and short-circuits. You also don't have to worry about your device overheating.
