Are you missing inputs on your iMac? With help comes the INVZI 8in1 Hub! This device is equipped with as many as 8 input ports, which are perfect for any situation. What's more, it also has an additional SSD enclosure that can hold up to 4T of storage! With its modern and well-thought-out design, it will also perfectly match your equipment and interior.

Many possibilities

The INVZI USB-C Hub is a versatile docking station that offers up to 8 different ways to connect your devices. With USB-C 3.2 Gen2, USB-C Host, two USB-A 3.2 Gen2 ports and USB-A 3.1 Gen 1, you can easily connect multiple devices to it simultaneously. In addition, the hub is equipped with a slide-out SSD slot and SD/Micro SD card slot for fast data transfer. Plus, with Gigabit Ethernet, you can easily connect your laptop to the network. This is ideal for those who need multiple options for connecting different devices to their iMac.

Slide-out SSD enclosure

One of the standout features of the INVZI Hub is the slide-out SSD enclosure. It supports NVMe and SATA M.2 drives, allowing you to easily expand your laptop's storage space. What's more, it allows you to add additional storage to your iMac up to 4TB, so you can easily increase the capacity of your desktop computer. It's the perfect solution for people who need a lot of space for their files and documents, and at the same time appreciate the convenience and ease of connecting devices.

Modern and thoughtful design

Modern and thoughtful design is one of the main advantages of the INVZI USB-C Hub. The premium aluminum alloy guarantees not only durability, but also a sleek and modern look that perfectly matches the iMac. The INVZI USB-C Hub is also a plug-and-play device, so it will be easy to set up and use. This Hub is a functional and aesthetically pleasing addition to your computer.
