USB-C docking station / Hub for MacBook Pro 16" INVZI MagHub 12in2 with SSD tray (gray)

Docking station / USB-C hub for MacBook Pro 16" INVZI MagHub 12w2 with SSD pocket (Grey)

Are you missing inputs on your MacBook Pro 16"? With help comes the INVZI 12-in-1 Hub! This device is equipped with as many as 12 input ports, which are perfect for any situation. What's more, it also has an additional SSD enclosure that can expand your MacBook's memory up to 4T! With its modern and well-thought-out design, it will also perfectly match your hardware and interior.

### Many possibilities

The INVZI USB-C Hub is a versatile docking station that offers up to 12 different ways to connect your devices. With three USB-C ports and two USB ports, you can easily connect multiple devices simultaneously. In addition, the hub features a slide-out SSD slot, an SD/Micro SD card slot for fast data transfer, as well as a Display Port and 2 x HDMI. Plus, with Gigabit Ethernet, you can easily connect your equipment to the network. This is ideal for those who need multiple options for connecting various devices to their MacBook.

### Slide-out SSD enclosure

One of the standout features of the INVZI Hub is the slide-out SSD enclosure. It supports M.2 SATA and NVME SSD drives, allowing you to easily expand your laptop's storage space. What's more, it allows you to add additional storage to your MacBook up to 4TB, so you can easily increase the capacity of your computer. It's the perfect solution for people who need a lot of space for their files and documents, while still appreciating the convenience and ease of connecting devices.

### Modern and thoughtful design

Modern and thoughtful design is one of the main advantages of the INVZI docking station. The aluminum from which it is made ensures not only durability, but also a sleek and modern look that perfectly matches the MacBook. What's more, you can securely attach the INVZI USB-C Hub to your device, as it is equipped with built-in magnets.
