Selfie stick Mcdodo SS-1781 Bluetooth (black)

Now you can easily capture the entire landscape in one shot! The Mcdodo selfie stick allows you to adjust its length up to 700 mm, and with built-in legs you'll convert it into a tripod in no time. It has an additional light that offers adjustable brightness, and thanks to its compact design when folded, you can take it with you anywhere. It also comes with a remote control that allows you to remotely control the camera's shutter at a distance of up to 10 meters.

The perfect selfie without much effort

With Mcdodo, creating stunning shots is easier than you think. The selfie stick allows you to adjust its length from 152-700 mm. This makes it easy to take the perfect selfie with a group of friends against a picturesque landscape! In addition, it is equipped with special fold-out legs that will help you turn your selfie stick into a tripod in just a few moments.

The perfect travel companion

Are you going on vacation? Or are you going to the mountains for the weekend? Take the selfie stick with you and take exceptional photos wherever you want! The lightweight and compact design makes it easy to fit the selfie stick into your bag or backpack - it certainly won't take up much space. Its operation and pairing with your device will be no problem for you. You'll find a remote control included, which will make it easy for you to control your camera from a distance. Its range reaches up to 10 meters, which will give you

even more freedom.

Perfect lighting in all conditions

Now you can easily take the perfect photo, regardless of the time of day or night! The selfie stick has a small light that will provide you with additional illumination while taking photos. It offers a 6-stage brightness adjustment, as well as 3 different lighting modes, so you can successfully adjust its operation to your needs. What's more, thanks to its clever design, you can detach it at any time and hide it when you don't need it.

Fits multiple devices

Position your smartphone as you are comfortable! Selfie stick is equipped with a practical handle that you can freely rotate 360°. Now you can easily position your smartphone both vertically and horizontally! The product works with phones with a diagonal of 3.5-6.7", so it can easily handle many popular devices.
