Ref: 6921002615013

Charger GaN 65W Mcdodo CH-1501, 2x USB-C, USB-A (black)

GaN 65W mains charger Mcdodo CH-1501 2x USB-C, USB-A (black)

Want to charge your devices quickly and safely? The Mcdodo mains charger can help you do just that! It has been constructed using the latest technology, so it guarantees fast and safe charging. With three outputs - 2 x USB-C and 1 x USB-A - it is able to handle different devices at the same time, making it convenient to use.

Fast and safe charging

The Mcdodo CH-1501 AC charger is a guarantee of fast and safe charging for your devices. With a maximum power of up to 67 watts, your devices will be up and running in no time. Three outputs, including 2x USB-C and USB-A, allow you to charge multiple devices simultaneously. The special technology used in the charger makes it smaller, yet stronger and safer.

Thoughtful design

The well-thought-out design of the Mcdodo CH-1501 mains charger ensures not only functionality, but also reliability and comfort. The use of the highest quality materials ensures not only the durability of the device, but also resistance to high temperatures, which is key to the safety and longevity of the device. An additional advantage is the silicone rim, which allows you to hold the charger comfortably. This carefully designed charger is a combination of reliability, safety.
