

## Wireless indoor IP camera Blurams A31

Wireless indoor IP camera Blurams A31

Ref: 6972127490320

### Blurams A31C indoor IP camera

Want to increase the level of security in your home? The A31C indoor camera can provide it for you! It provides a wide 109° viewing angle and high 1080p resolution, and what's more, it will allow you to get clear images even at night. It supports 2-way audio, and intelligently detects motion or sounds. A dedicated app provides convenient access to its functions, and compatibility with Amazon Alexa and Google Assistant will make it even easier to control.

### A wealth of detail

With Blurams A31C, you'll never miss a detail again! The camera captures high-quality 1080p video and provides a wide 109° angle. What's more, it also has the ability to pan 360° horizontally and 95° vertically. Even at night, it will provide a clear picture, thanks to 6 LEDs with an infrared filter at a distance of up to 7 meters.

### Instant notifications

The camera detects sounds and motion, which means that if something happens in your home, you will be notified right away - you will receive a dedicated notification in the app. The device will detect people, unusual sounds and movement in real time, and what's more, it will effectively scare off uninvited guests thanks to audible alarms. With Blurams you can rest assured about your home!

### 2-way sound

Starting today, you can comfortably greet guests or convey important information to family members. The Blurams camera supports 2-way audio, so you can easily listen to what's going on in the room or hold conversations. With its help, you can talk to your children or give a command to your pet. With Blurams you can keep your hand on the pulse and be sure you won't miss anything!

### Store your materials easily

You don't have to worry about losing important footage recorded with your camera. Along with the A31C, you get free access to the cloud for one month - after that, you can purchase a new plan for an additional fee. However, there is also an option to store files locally. This device supports microSD cards of up to 128 GB (not included). From now on, all your content will be safe!

### Convenient operation

The A31C camera was created with simple operation in mind, so it is very user-friendly. The Blurams app, available for iOS, Android and computer, will provide convenient access to functions. What's more, you can control the device with simple voice commands, as it is compatible with Google Assistant and Amazon Alexa. See for yourself how easy it is!
