

360° Outdoor Wi-Fi Camera IMOU Cruiser 4MP

360° Outdoor Wi-Fi Camera IMOU Cruiser 4MP

Ref: 6923172500335

IMOU Cruiser 4MP Wi-Fi outdoor rotating camera

IMOU Cruiser is a camera that will allow you to monitor the area in front of your house. It works wirelessly and connects to your smartphone via Wi-Fi. It records videos in 4MP QHD quality and offers several different modes. It features a microphone and speaker, so you can talk to others freely, even when you're not at home. It also has built-in blinding headlights and a loud alarm, and intelligently detects and tracks objects. It's water and dust resistant, so it can handle even the toughest weather conditions.

See more in the dark

The camera lets you choose between several types of night mode, so you can customize the operation of the IMOU Cruiser to suit your needs. Smart Mode automatically changes the black and white image to color mode when an intruder is detected, and will also activate a warning light. Color Mode offers a colorful image thanks to built-in LEDs - great for front-of-house lighting, too. Infrared Mode, on the other hand, uses infrared to provide a clear, black-and-white image after dark. With the IMOU Cruiser, you'll always have a full picture of what's happening in front of your home.

Clear recordings and secure storage of footage

Now you won't miss any important event anymore. The camera captures footage in superb 4MP quality, ensuring exceptionally clear and detailed recordings, regardless of the time of day. You also don't have to worry about losing your footage. All recordings are stored on a

microSD card with a maximum capacity of up to 256GB or in the IMOU cloud.

Security at the highest level

With the IMOU Cruiser, you can rest easy knowing that the camera is constantly watching over your safety! The motion detection function allows you to quickly detect any person within the camera's range, and the loud alarm and blinding warning light are sure to scare away a potential intruder. What's more, you'll be notified of everything immediately! The wide horizontal and vertical viewing angle will ensure that nothing escapes your attention. The camera also offers a function for tracking moving objects, for even greater security. It is also possible to disable certain zones, so that the alarm will not sound in the selected area.

Thoughtful design

This is not the end of the camera's advantages! The camera has a built-in speaker and microphone that will accurately record your every word. Thanks to it, you can, for example, inform the courier to leave the package at the door or call the children home. What's more, the external dual antenna is responsible for stable signal transmission, and the water- and dust-resistant design translates into durability and longer life of the device.

Included

camera
installation manual
power supply
mounting bracket
waterproof connector
set of screwdrivers
mounting plate

Manufacturer

IMOU

Model

Cruiser (IPC-S42FP)

Matrix

1/2.7" 4MP CMOS

Resolution

4 MP (2560 x 1440)

Detection range at night

30 m

Type of lens

fixed focal length

Focal length

3.6 mm

Field of view

3.6 mm: 105°(D), 46°(V), 89°(H), tilt 0~90°, rotation 355°

Video compression

H.265/H.264

Connection

1 x 100 Mbps Ethernet Port; Wi-Fi: IEEE802.11b/g/n; Dual antenna (up to 120 m)

Application

IMOU

Compatibility

iOS, Android

Interface

Micro SD card slot (up to 256 GB)

Power supply

DC 12V/1A

Power consumption

< 5.32W

Material

plastic

Operating temperature

-30°C~+50°C

Working humidity

less than 95% RH

Dimensions

138.4 × 121.7 × 257.5 mm

Weight

565 g

Tightness class

IP66

Price:

€ 107.00
