Indoor Wi-Fi Camera IMOU Cue 2-D 1080p

Ref: 6971927235384

Indoor Wi-Fi Camera IMOU Cue 2-D 1080p

Feel safer in your home. The Cue 2-D camera provides 1080p resolution, and with Night Vision it offers clear images even at night. It also detects people and unusual sounds - if something happens, you'll get an instant notification on your phone. It also has a built-in siren and features a wide 131° field of view. Its added advantage is compatibility with Amazon Alexa and Google Assistant.

It will notify you of disturbing events

Don't be afraid that an unauthorized person will get into your home and you won't know about anything. If a person walks past the camera, you will immediately receive a notification on your phone. The device detects only human silhouettes, so you won't get unnecessary messages every time something, such as an animal, comes within its range. What's more, thanks to the built-in siren, you can scare away a possible intruder.

Detects unusual sounds

This is not the end of the camera's capabilities. The device also detects unusual sounds - for example, if a baby starts crying or something heavy falls on the floor, you will be notified immediately. This way you can always keep your hand on the pulse - even when you are not at home. All this makes the Cue 2-D camera perfect for the hallway, living room or room of the youngest family members.

You won't miss anything important

The camera provides a 131° field of view, allowing you to monitor the entire room without any problems. What's more, the device records video in 1080p resolution - you won't miss a single detail. There is also a Night Vision function that automatically turns on and off. It uses advanced IR algorithms to produce clear images even in total darkness.

Various recording options

Save your recordings and be sure to have access to them if you need them in the future. The camera supports microSD memory cards of up to 256 GB. It also allows you to store video footage in the cloud. Choose the right solution for you!

Built-in speaker and microphone

The Cue 2-D camera will also allow you to conveniently communicate with family members or guests staying at home. It's equipped with an echo-canceling speaker and microphone, so you can talk freely with your loved ones, ask the courier to leave a package at the door, call your pet or greet your friends who came to the party.

In the box

- 1x camera
- 1xscrew package
- 1x mounting plate
- 1x mounting foam
- 1x installation position map
- 1x power adapter
- 1x power cable
- 1x quick start guide
