

## Case/Holder ESR Stick-On Tag for AirTag (4 pcs.)

Ref: 4894240131145

Case/Holder ESR Stick-On Tag for AirTag (4 pcs.)

ESR Stick-On Tag Case/Capture for AirTag (4 pcs)

Protect your locator with an ESR case. Designed specifically for AirTag (2021), it provides comprehensive protection and the ability to conveniently place the gadget on your devices. Robust workmanship ensures that the case does not interfere with the AirTag's operation. You will find 4 pieces in the set.

Perfect fit

The cut of the case is a perfect fit for the AirTag, so you can place it safely anywhere. The soft silicone ensures easy installation and removal, and the addition of a strong adhesive ensures that the locator will hold wherever you place it. (Note: frequent repositioning may weaken the adhesive).

Does not restrict the signal

The case is designed not to affect the operation of the device. This keeps the signal strong and the speaker exposed, so you don't have to worry that the AirTag won't work when you need it.
