

Wall charger with timer function Budi, 2x USB, 12W (white)

Ref: 6971536921388

Wall charger with timer function Budi, 2x USB, 12W (white)

Budi mains charger with timer function, 2x USB, 12W (white)

Budi 030E network charger is the perfect combination of performance, functionality and safety. With a maximum power of 12W, the charger provides enough power to charge your devices quickly and efficiently. It is equipped with 2 USB-A ports, which allows you to renew the energy of two devices at the same time. It offers a timer function, which allows you to set the power time for your devices - after a certain time, the charger will automatically stop working. Multi-level protection effectively protects your equipment from damage, and the clever design with a folding plug will make it easy for you to store.
