

Card Reader/Multifunctional Storage Stick Budi USB-C 3.0

Ref: 6971536927571

CARD READER Budi MULTIFUNTION STORAGE STICK USB-C 3.0

Card Reader/Multifunctional Storage Stick Budi USB-C 3.0

Now you can always have everything you need at hand. Budi's multifunctional card reader allows you to transfer files in no time, and can store up to 3 SD cards and 15 TF cards. It also offers a practical USB-C to USB-C cable and 3 adapters (USB-A to USB-C, USB-C to micro USB and USB-C to lightning). There are also 2 slots for nano SIM cards, and the kit additionally includes a tool for easy replacement. What's more, the reader can act as a stand for your phone and is very durable - its casing is made of durable aluminum.

Cable and adapters included

Do you usually use multiple devices with different ports? Now you can make it easier for yourself to charge them and transfer files! The kit includes a USB-C cable, which supports the PD standard and allows you to charge selected equipment with up to 65 W of power. You also get 3 adapters - USB-A to USB-C, USB-C to micro USB and USB-C to lightning. This gives you the freedom to use different configurations and customize the cable to suit your needs!

The card reader you need

This practical device will come in handy especially for graphic designers, photographers, video editors and others who need to manage multiple files on a daily basis. The Budi reader is equipped with 3 SD card slots and as many as 15 TF card slots. This means you can always have all your most important photos or videos with you! What's more, the product allows you to read and write files on 2 cards

simultaneously. The maximum supported capacity is 512 GB.
