Pocket Power Bank, Budi, 802, 10000MAH

Ref: 6971536927601

Powerbank Budi 10,000 mAh

The Budi Powerbank is distinguished by its 10,000 mAh capacity, and with an amperage of up to 2.4 A, you'll be able to enjoy even faster charging of your devices. It offers USB-C and Lightning input ports, as well as a USB output port. A number of safety features make it completely safe to use, and a practical LED indicator allows you to conveniently monitor the charging process. It comes with a USB-C cable and a lanyard for added convenience.

Fast charging of your devices

Thanks to its advanced charging technology, the Budi powerbank provides optimal power to your devices, guaranteeing fast and safe energy renewal. Its capacity is as high as 10,000 mAh, and the amperage reaches 2.4 A - all of which translates into efficiency. The backup charging mode further enhances the safety of your device and protects the battery from damage.

LED backlighting

Thanks to the LED backlight, you can check the battery's charge level in real time. Four LEDs allow you to conveniently verify the status of the device. Find out how convenient it is!

Safety of use

The built-in system prevents overcharging and protects the device from short circuit. Thus, the Budi powerbank ensures safe energy renewal. Have it always at hand and enjoy reliable operation of your equipment!
