

Charger Budi 315TE, USB-C+USB, 100V~240V

Charger Budi 315TE, USB-C+USB, 100V~240V

Ref: 6971536925584

Budi TYPE C + USB 2.4A 5V charger

The Budi model 315TE charger is a versatile tool for charging your devices. It is extremely versatile with its ability to handle input voltages from 100V to 240V, making it the perfect companion for travel.

Multiple applications

The 315TE includes both a USB-C port and a standard USB port, making it compatible with a wide range of devices. The USB-C port offers a variety of output options, such as 5V3A, 9V2A and 12V1.5A, enabling fast and efficient charging for devices with higher power requirements, such as modern smartphones and laptops. The traditional USB port, on the other hand, provides 5V2.4A output, which is ideal for most mobile devices such as phones, tablets and other USB-powered equipment. This makes it so you can enjoy the convenience and versatility of charging all your devices wherever you are.
