

## 360° Indoor Wi-Fi Camera IMOU Rex 3D 5MP

360° Indoor Wi-Fi Camera IMOU Rex 3D 5MP

Ref: 6971927237555

360° Indoor Wi-Fi Camera IMOU Rex 3D 5MP.

Keep an eye on what's going on in your home - even when you're not there. The IMOU Rex 3D indoor camera is the perfect solution for anyone who wants to feel safe. Thanks to its rotating design, it monitors everything that happens near it. The 3K-quality image and 8x digital zoom will make sure you won't miss a single detail. The camera offers smart features and is equipped with a motion sensor, so you'll always be on the lookout for what's going on in your home. The built-in microphone accurately records your voice, while the speaker allows you to stay in touch with those within range of the camera. The Rex 3D model stands out for its wide compatibility and works with iOS and Android operating systems, allowing you to keep a watchful eye on the security of your home even when you're on vacation!

Picture full of details

Now everything that happens within the camera's range will be precisely recorded. The use of a progressive sensor ensures efficiency, and thanks to the 5MP resolution, you can see more details in the recordings. The wide field of view and rotating design allows you to monitor a sizable area of your home in a panoramic view (355° horizontally and 90° vertically), so you will always know if your home is safe.

Safety after dark

The Rex 3D camera also performs well at night. The night vision mode with 10-meter vision captures high-quality images even in low-light conditions, so you can rest assured - IMOU is keeping your home safe.

#### AI for your sense of peace of mind

Developed by the IMOU brand, the IMOU SENSE system uses artificial intelligence to make video, audio and navigation algorithms up to half as accurate as standard devices of this type. The Rex 3D model features an enhanced motion detector, allowing it to accurately inform you of the situation of your children or your pet, giving you peace of mind that they are safe.

#### Intelligent motion detection

Are you on vacation and worried about whether your home is safe? Rest assured! The IMOU camera uses an advanced motion detection system, so you get a notification to your phone in as little as 0.6 seconds whenever something disturbing happens within the camera's range. All you have to do is reach for your phone to see that everything is fine at home.

#### Adapt to your rhythm

IMOU meets your needs with smart solutions. From the app on your phone, you can schedule times when the camera monitors rooms. You can also set monitoring zones, so you can avoid false alarms when there is a household member constantly within the camera's range. Don't respond to the sound of an alarm? The Rex 3D model allows you to personalize the signal, so you'll always recognize it. What's more, with just one click in the app, you can turn off the camera and enjoy complete privacy.

#### File storage

The camera offers two ways to store your recordings. With an SD card of up to 256 GB, you can keep videos from up to 16 days back. If you prefer, your recordings can go to the cloud, so you can access them from your own phone at all times.

#### Two-way audio

The Rex 3D isn't just about video! The camera is equipped with a microphone and speaker, so it accurately captures sound and also allows two-way communication. Such a solution will allow you, for example, to call home for dinner or scare off a possible burglar, providing both convenience and control.

#### Thoughtful design

This small camera is distinguished by its robust design. Its working environment is  $-10^{\circ}\text{C} \sim 45^{\circ}\text{C}$ , so it will work well in any room. Its advantage is low power consumption, so you don't have to worry about higher electricity bills. The camera uses Wi-Fi connectivity and works with iOS and Android operating systems, ensuring wide compatibility and freedom of hardware selection. In the app, you can share the camera's image with other users, so all household members get a clear view of what's going on at home. What's more, its elegant design resembling a crystal ball will be an interesting decoration for your home.

#### Package contents

1x Camera  
1x Quick start guide  
1x AC adapter  
1x USB cable  
1x Set of screws  
1x Quick installation plate  
1x Installation position map  
Manufacturer  
IMOU  
Manufacturer code  
IPC-GS2DP-5K0W

## Camera

Matrix

1/2.8" progressive CMOS sensor

Resolution

3MP(2304 x 1296)

Night vision:

10m distance
