

## Earphones Soundpeats Mini Pro HS, ANC (Black)

Ref: 6941213609458

Earphones Soundpeats Mini Pro HS, ANC (Black)

### Earphones Soundpeats Mini Pro HS (Black)

Enjoy your favorite tunes in a new way. The headphones deliver HiRes Audio, which translates into richly detailed sound. What's more, they use hybrid ANC technology that reduces ambient noise by up to 40 dB, and the durable batteries provide up to 28 hr of use on a single charge. In addition, low latency enhances immersion during gameplay.

### Impressive sound quality

Your favorite tunes have never sounded so good. Soundpeats Mini Pro HS offer superior sound certified by HiRes Audio and use the LDAC codec. This translates into high-resolution sound with rich detail and a stable signal. ANC, on the other hand, eliminates ambient noise by up to 40 dB, so you can cut out the noise and focus on what's important to you. However, if you prefer to stay in touch with your surroundings, turn on Transparency mode.

### Carry on conversations freely on the phone

Talk to your loved ones no matter where you are. Soundpeats headphones use advanced ENC noise cancellation technology and feature 3 microphones (each earpiece), allowing you to talk comfortably in noisy places. Now you can be sure that your caller will hear you!

### Long runtime

Take the Soundpeats Mini Pro HS on the go without worrying about a sudden discharge. The headphones run for up to 8 h on a single charge, and with the charging case, the total playback time is 28 h. Conveniently listen to your favorite podcasts or audiobooks on your way to work, college or vacation!

#### More possibilities

That's not the end of the advantages of Soundpeats Mini Pro HS! The headphones offer a latency of 70 ms, which translates into better synchronization of video and audio - perfect for watching movies or gaming. All you need to do is turn on Game mode. In addition, the dedicated app provides access to various functions and will allow you to customize the operation of the headphones. See for yourself!
