

USB-C to USB-C LED cable Budi, 100W, 1.5m (black)

Ref: 6971536927090

Cable 2xUSB-C Budi 229TT, 100W, 1.5m (black)

USB-C to USB-C LED cable Budi, 100W, 1.5m (black)

Renew your device's power quickly and conveniently with the Budi cable. The product works with PD 100W and QC5.0 fast charging protocols and has a built-in LED display. It also allows you to transfer files at 580 Mbps. What's more, it features a rugged design and is resistant to wear and tear and breakage.

Charging and data transfer

The Budi cable offers 2 USB-C connectors and is compatible with PD 100 W fast charging protocols and QC5.0/4+/3.0/2.0. As a result, you don't have to wait too long for your device to be ready to continue working. What's more, it enables data transfer speeds of 480 Mbps.

Thoughtful design

The cable was created from zinc and nylon alloy, which translates into durability and wear resistance. What's more, it has passed tests for durability and is protected from cracking. In addition, it has been equipped with an LED display that will provide you with information on the product's working status.
