

Smart switch Sonoff MINIR4

Smart switch Sonoff MINIR4

Ref: 6920075740202

Sonoff Smart Switch MINIR4

Do you want to use your devices even more conveniently? With the Sonoff smart switch it will be possible! The product allows you to control your connected devices using the eWeLink app or via assistants like Google Home or Amazon Alexa. To confirm safety, the device has received multiple certifications. What's more, by combining it with R5 or S-MATE hardware (available for sale separately), you can gain even more remote control of your devices.

Smart switch

The Sonoff smart switch is distinguished by its small size, which makes it more convenient to use and will fit into various mounting boxes, including the smallest one - EU/86/120. It is equipped with an EPS32 chip, which turned it into an intelligent device. With its help you can automate lighting and electronic devices, transforming your home, into a Smart Home.

High compatibility

The Sonoff Smart Switch shows great compatibility. You can easily connect it to switches such as Door Switch, Rocker Switch, Momentary Switch, SPDT Switch, and even currentless sensors. What's more, you can easily create smart scenes as the switch works with motion sensors, door and window sensors ora other home automation functions.

Easy control

You no longer have to worry about the hassle of managing a smart home. You can pair the MINI R4 equally with the R5 and S-MATE (available for sale separately), so you'll be able to control it locally, even when you can't establish an Internet connection. The eWeLink-Remote signal will make this possible. What's more, you can also control the switch by voice, thanks to compatibility with Google Home and Amazon Alexa.

Quick start

Connecting the smart switch is very easy. All you have to do is connect it with the right device and then download the eWeLink app. Now all you need to do is pair your phone and equipment with Bluetooth technology. This allows you to exercise control over your entire home even if you're at work or shopping.

Security

The Sonoff smart switch is also a guarantee of safety even in unusual situations. It has received TÜV certification, and it also meets CE and FCC standards. This gives you peace of mind that the device complies with international regulations. What's more, with its new connectors, fireproof housing and the use of high-quality materials, it is even more resistant to wear and tear and can serve you for a very long time.
