

## Wireless induction charger Dudao A10B, 10W (white)

Ref: 6970379618431

Wireless induction charger Dudao A10B, 10W (white)

Dudao A10B inductive wireless charger, 10W (white)

The Dudao A10B inductive wireless charger offers the ultimate in quality, convenience and innovation. Designed by Dudao, it delivers efficient and fast charging without wires. Highly adjustable output power and an operating distance of up to 8mm guarantee versatility and safe use. It is the ideal solution for those who appreciate style and functionality.

Comfortable to use

The Dudao A10B inductive wireless charger is designed with convenience and efficiency in mind, offering users the ability to charge their devices without the need for wires. It is equipped with a 9V 2A / 5V 2A input, ensuring fast and efficient charging, regardless of the device. What's more, it demonstrates a power output of 10W. An additional advantage is the operating distance of up to 8mm, which means that charging is possible even when using thick cases. The Dudao A10B inductive wireless charger is the perfect combination of style, convenience and functionality.
