Smartwatch Colmi C81 (Orange)

Choose the Colmi C81 and gain access to the most important functions. The smartwatch provides HD video with its AMOLED display and allows you to make calls conveniently. It works with AI voice assistant, so you can quickly and conveniently use the watch's selected functions. It offers more than 100 sports modes and will allow you to increase the efficiency of your workouts. What's more, it monitors your heart rate and sleep and runs for up to 7 days on a single charge. Check out what else it can surprise you with!

AMOLED 2.0" display

Colmi C81 offers a large AMOLED display with a 2.0" screen diagonal, so you can easily read messages and adjust settings. In addition, the screen resolution is 410 x 502 px, which translates into a sharp HD image and rich colors. Enjoy clear and convenient access to notifications with the Colmi smartwatch.

Conveniently answer calls

You no longer need to reach for your smartphone to manage incoming calls. Colmi C81 lets you answer and make calls. You also gain access to the call log. The smartwatch provides HD phone calls for greater convenience. Now you can talk to your loved ones while working out or on your way to work without using your smartphone.

Voice command support

Need to make a quick call to a loved one? Colmi C81 will not let you down! The device works with AI voice assistant, so all you need is a simple voice command to use the watch function of your choice. Find out how easy it is!

Tailored to your needs

Customize the smartwatch even more to your liking. Colmi C81 offers various dial designs to personalize the look of your smartwatch. You can also upload a photo of your choice. In addition, several menu styles are available, so you can choose the right one for you. In addition, the watch screen will turn on when you lift your wrist, allowing you to quickly check the time or the weather forecast.

More than 100 sports modes to choose from

Want to plan your workouts even better? Colmi C81 will help you do just that! The smartwatch uses smart algorithms that monitor your heart rate, the number of calories burned and the time of your workouts, so they will be more effective, and you will achieve your desired results faster. You can also check your workout history for the past 7 days. The smartwatch offers sports modes such as running, climbing, skipping, basketball, walking, badminton, cycling and soccer. To gain access to the other modes, download the FitCloudPro app.

Allows you to take care of your health

The smartwatch is equipped with an optical sensor that automatically generates heart rate data every 30 minutes. It will also notify you of alarming symptoms, so you can quickly respond to them. In addition, it measures SpO2, so you can check your blood oxygen levels at any time. In addition, it monitors sleep and records its phases, which will help you eliminate bad habits.

Efficient operation

The Colmi C81 smartwatch uses the RTL8763EWE-VP chip, which stands out for its low power consumption and ensures fast and smooth operation of the device. In turn, the lithium-polymer battery with a capacity of 250 mAh translates into a long working time of the smartwatch. On a single charge, the product works for up to 7 days (daily use), and remains in standby mode for about 30 days. You will renew its energy in about 2 hours using the included cable.

Rugged design

The smartwatch will perform well for daily use. It is IP68 water and sweat resistant, so you can successfully take it for a workout. It is also not intimidated by rain. The use of aluminum alloy translates into durability, and the durable glass prevents the screen from cracking. In turn, the silicone strap is pleasant to the touch and gentle on the skin.

Additional functions

Colmi C81 can act as your daily assistant. It will inform you of new notifications, so you won't miss important information. What's more, it will let you check the weather forecast, take photos remotely and manage your music player. In addition, it will remind you to drink water and change your position if you sit for too long.
