Smart socket WiFi Gosund SP1 (4-pack) Tuya

Ref: 6972391280221

Smart socket Gosund SP1 (4-pack)

Gosund SP1 is a smart socket with an EU plug. Through the application, we can control lighting or other household devices directly from the application on our smartphone. Using the Smart Life app (Tuya app) (for free download on Android and iOS). Once the product is connected to the local network and added to our app, we can control it from anywhere in the world where we have Internet access. The device works with the latest systems: IFTTT, Amazon Alexa and Google Assistant. The kit includes 4 SP1 smart sockets. Type DE - without hole (side earthing)

Easy to use

The Smart Life application is available in Polish, in addition to the standard device on/off switch-on/off, it also offers the creation of action plans for individual devices, thanks to which it can automatically switch on/off connected devices at specific times. Gosund devices work only in 2.4GHz WLAN networks. Thanks to the application you can plan the operation of the devices in your home (including lamps) so that they simulate the presence of a resident, which can scare off a potential burglar.

Rugged construction

The Gosund SP1 plug is made of the highest quality materials. It is ROHS and CE certified, the housing is safe and fire resist
