Wireless Bluetooth speaker EarFun UBOOM Slim

Ref: 6974173980244

EarFun UBOOM Slim Bluetooth Wireless Speaker

The EarFun UBOOM Slim is a compact speaker that supports Bluetooth 5.2 technology for a seamless and stable connection. With 20 watts of power, it guarantees a rich and immersive sound experience, while its slim design and light weight make transportation hassle-free. The operating time on a single charge reaches 18 hours. Whether you're hosting a barbecue in the garden, relaxing by the pool or embarking on an outdoor adventure, the EarFun UBOOM Slim is the perfect companion, and thanks to its IPX7 waterproof rating, it's unafraid of splashes.

Let the music sound

The EarFun UBOOM Slim speaker surprises with powerful sound thanks to its impressive 20-watt output power. It is equipped with a 45-millimeter driver, so it excels in bass reproduction. As a result, the device provides impressive sound quality that will satisfy even the most demanding users.

Enjoy a stable connection

Thanks to Bluetooth 5.2 technology, the EarFun UBOOM Slim speaker provides a reliable and stable wireless connection over a distance of up to 10 meters. You can easily pair it with various devices such as smartphones, tablets and laptops and enjoy the freedom of music playback.

Conveniently make calls

Talk on the phone hands-free. With the built-in microphone, you can make phone calls directly through the speaker. Experience how convenient it is!

Take it wherever you want

Do you often go cycling? Or are you going hiking? The EarFun UBOOM Slim speaker provides you with the ability to enjoy great music, regardless of your activity. The device weighs less than 560 g, and its dimensions allow you to hold it in one hand. The included accessory allows you to clip the speaker to your backpack, and thanks to its IPX7 waterproof rating, you can take it anywhere without worry.

Listen to music for 18 hours

The EarFun UBOOM om Slim speaker provides an impressive playback time of up to 18 hours, so you can enjoy your music uninterrupted. To renew its energy, you only need about 5 hours of charging. In standby mode, the device lasts up to 40 days.
