

## Sonic toothbrush Soocas SPARK

Sonic toothbrush Soocas SPARK

Ref: 6970237665614

### Sooocas Spark sonic toothbrush

Gain confidence with a beautiful smile. The Soocas Spark sonic toothbrush uses premium DuPont bristles, provides IPX8 water resistance and features a compact and lightweight design. Its powerful motor guarantees precise cleaning, and with the timer you can easily control the cleaning time. The device supports 2 modes of operation, and its operation is extremely quiet. You will operate it with a single button. What's more, the powerful battery allows for 40 days of operation on a single charge.

### Reliable performance

Thanks to its advanced motor, the Spark toothbrush works extremely efficiently. In doing so, it reduces energy loss by 60% and provides concentrated power delivery to the bristles. It also uses innovative micro-bubble technology, ensuring effective removal of food debris from even hard-to-reach areas between teeth. In addition, the device offers 40% higher density DuPont 612 Brilliance Bristles with rounded tips that are arranged in a wavy pattern for a better fit in the mouth. The product also has as many as 16 patents and has passed more than 50 tests to prove its high quality.

### 2 modes of operation

The device offers 2 modes of operation - so you can adjust its performance to suit your needs. The gentle mode is recommended for first-time users and those with extremely sensitive teeth. The cleaning mode, on the other hand, will be an excellent choice when you are

concerned about whitening your teeth. High-frequency vibrations provide effective cleaning, so you'll achieve a white and radiant smile.

#### Thoughtful solutions

The noise level of the toothbrush does not exceed 55 dB, and a 2-minute timer reminds you every 30 seconds to change the brushed area, helping you form better habits. In addition, the device remembers the last used mode and is distinguished by IPX8 water resistance. As you can see - every detail has been taken care of!

#### Up to 40 days of use

A 2-hour charge is enough to use your Spark toothbrush for up to 40 days. Say goodbye to the need for frequent power renewal and enjoy wireless convenience! Worried about forgetting to charge your device? Don't be! When the battery charge level reaches 20%, you'll see a notification.

#### Refined design

The handle of the toothbrush is made of aluminum alloy, so it is sturdy and looks aesthetically pleasing. A practical light ring allows you to check the battery level, and the transparent head makes it easy to check the status of the toothbrush. In addition, the device has undergone a series of tests that have proven it to be corrosion-resistant. At the same time, it is smaller and lighter than similar toothbrushes. Opt for convenience and functionality with Soocas!

#### Compact design

What else sets the Soocas device apart from other sonic toothbrushes? Among other things, its compact design - the Spark model is half the length of most similar products, and its dimensions (8.97") are similar to those of standard manual toothbrushes. It's also much lighter, weighing only 0.13 pounds, so its weight is only 1/3 that of other electric toothbrushes. As a result, using it is convenient.
