

AOHI AOC-L009 USB-C to Lightning Cable 27W 1.2m with Display

AOHI AOC-L009 USB-C to Lightning Cable 27W 1.2m with Display (Black)

Ref: 6973939550271

AOHI AOC-L009 display cable, USB-C to Lightning (Nylon)

AOHI AOC-L009 is compatible with devices with Lightning port and allows you to renew their energy. What's more, it provides data transfer at 480 Mbps - you will transfer a 1GB file in 25 seconds. In addition, the display will inform you about the charging rate. In turn, the rugged design ensures resistance to wear and tear.

Instant charging

The cable is MFi certified and has a Lightning connector, so it will quickly renew the power of devices such as iPhone, iPad, iPod and MacBook. Combined with an 18W charger, it will charge your iPhone to 60% in about 30 minutes. In addition, the LED display will inform you of the charging process in real time, and a color indicator will notify you of the charging speed (yellow - fast charging, blue - standard charging, green - sustained charging).

Durable

The AOHI AOC-L009 will last you a long time. It has passed durability tests, making it resistant to bending and cracking. In turn, the sturdy aluminum connector can withstand repeated connection to devices. What's more, the nylon and TPE finish protects the product from wear and tear.
