

Insta360 Flow Spot Light

Insta360 Flow Spot Light

Ref: 6970357854585

Insta360 Flow supplemental lighting

Light up your recordings with Insta360. Additional lighting is designed for the Insta 360 Flow gimbal. This small but powerful light source will give you professional quality Ra95 lighting in any conditions, taking your footage to a whole new level. It allows you to choose from 3 levels of color temperature (warm, mixed and cold) and 3 levels of brightness. You can freely rotate the lamp to illuminate the front or rear lens.
