

Battery for GoPro Hero 9 / Hero 10 / Hero 11 (GP-HPB-011)

Ref: 6974944461125

Battery for GoPro Hero 9 / Hero 10 / Hero 11 (GP-HPB-011)

Rechargeable battery for GoPro Hero 11 / Hero 10 / Hero 9 (GP-HPB-011).

Record even longer footage! Telesin's rechargeable battery offers a capacity of 1720 mAh and allows you to extend recording time up to 100 minutes. It supports fast charging and can work even in extreme temperatures. It works with GoPro Hero 11, Hero 10 and Hero 9 sports cameras.

Even longer recording

No longer do you have to worry about your camera discharging when you least expect it, and you will be deprived of recording special moments. The battery provides an impressively long operating time. With it, you can record 4K/120FPS videos for 45 minutes, 4K/60 FPS for 60 minutes and 1080p/30FPS for as long as 100 minutes. Charging the battery itself will take you about 85 minutes using the Telesin charger (not included).

Resistant to extreme conditions

Now you can create stunning footage even on freezing days! The Telsin battery is not intimidated by extreme temperatures - it can easily operate at temperatures from -20°C to as high as 60°C. Its maximum operating time at -20°C is 82 minutes (1080p/30FPS). You can be sure that the Stamina battery will survive in almost any conditions!

Compatible with your GoPro Hero camera

Forget about compatibility problems! The battery works perfectly with GoPro Hero 11 / 10 / 9 cameras. Say goodbye to pop-ups and errors - now you can uninterruptedly record fantastic footage for as long as you want and enjoy the benefits of fast charging.
