

Mini electric screwdriver set JIMI Home JM-G3102, 30 pcs

Ref: 6970211470616

Mini electric screwdriver set JIMI Home JM-G3102, 30 pcs

Electric precision screwdriver Jimi Home set of 30 bits

Drive screws quickly and conveniently with Jimi Home! The electric precision screwdriver is equipped with an electric motor for efficient operation. What's more, with the help of different modes and different torques, you'll be able to adjust its operation to your needs. In addition, a set of bits will allow you to perform a variety of jobs. With Jimi Home, no malfunction will be a problem for you!

Comfort of use

The Jimi Home electric precision screwdriver was created with comfort in mind. The whole set is placed in a small magnetic box, so it will always be in order! Inside there is a special storage compartment for screws and tweezers to make work easier. What's more, the screwdriver itself has been equipped with a light, which will make it easier to work in rooms with bad lighting. Enjoy the comfort of working with Jimi Home!

Two modes to choose from

You can easily adjust the operation of the precision screwdriver to your needs, as it is equipped with two different modes. The automatic mode is fast and features low noise, stable operation and high efficiency. On the other hand, the manual mode is distinguished by its safe use and will not lock the screws during operation.

Multiple applications

The Jimi Home device is created for multiple use scenarios. With the help of a special button, you can adjust the torque of the screwdriver. The highest gear (0.3~0.35 N·m) will be ideal for repairing larger electronics like laptops and game consoles. The lowest gear (0.1~0.15 N·m) will work well for more precise work like repairing eyeglasses, watches or phones. When you move the button to the middle - it will turn off the power and then switch to manual mode.

Thoughtful design

Thoughtful design is what sets the electric precision screwdriver apart. Use the soft rubber button to change the rotation. The up arrow is screwing, while the down arrow is unscrewing. You won't have any trouble charging it either, as you just need to put it in the special charging base included in the set. In addition, special LEDs, will inform you about the state of charge - red means low power, and white, full energy.

Bit set

In the box you will also find a set of 30 bit with so much variety, you'll be able to do almost any job with it! What's more, they have been placed so that you can easily pull them out. Enjoy perfect order and pleasant work with Jimi Home!
