

Car charger JOYROOM C-A35 PD 45W (black)

Car charger JOYROOM C-A35 PD 45W (black)

Ref: 6941237136404

JOYROOM C-A35 PD 45W car charger (black)

Have you planned a long car trip and are worried that your devices might discharge? This sturdy car charger with two USB ports will help you keep them charged. Enjoy your music, navigation and other applications without worrying about the state of your battery. Its wide compatibility and security system make it a must-have accessory for anyone traveling with electronics.

Safety first

This car charger certainly deserves recognition, thanks to its sturdy construction made of high-grade zinc alloy. What sets it apart is a smart chip that automatically identifies connected devices and adjusts the charging current, providing protection against overvoltage, overcharging or short circuit. With Joyroom, your devices are protected and safe while charging, and the CE, FCC and RoHS certifications prove it.

Charge two devices at once

With two USB ports, the Joyroom C-A35 charger allows you to charge two devices simultaneously. So you can charge your phone and tablet at the same time without missing a beat. The ports support fast charging protocols - PD 3.0 and QC 3.0, enabling instant replenishment of a wide range of devices.

Thoughtful Design

The charger is extremely convenient to use. It has been equipped with a double ring for removing it from the socket - this design makes it easy to use and prevents damage. Despite its great capabilities and resistance to damage, the charger is handy and lightweight, so it takes up little space. Bet on convenience and enjoy full freedom with Joyroom!
