

## Vacuum cleaner Deerma DX900

Vacuum cleaner Deerma DX900

Ref: 6955578034374

Deerma DX900 upright vacuum cleaner

Deerma DX900 vacuum cleaner is distinguished by an extremely effective filtration system that allows you to effectively get rid of dust, allergens and other harmful agents. You can use it in 2 ways, and thanks to interchangeable brushes you can adapt it even better to your needs. The high-end motor guarantees efficient, yet quiet operation at 75 dB. The vacuum cleaner is also lightweight and handy, so you will enjoy exceptional comfort while using it.

Your secret weapon in the fight against dirt

With the DX900, you will quickly and conveniently get rid of dust, dander, pollen, bacteria and dust mites. The perforated steel filter effectively traps dirt and allergens. The powerful rotating force instantly directs waste into the container, which you can easily detach, empty and wash. Filtration efficiency is enhanced by an independent air duct and a 90° and 135° curved air inlet. All this means that the vacuum cleaner will enable you to create a clean, health-friendly environment in every room of your home.

You will apply it in 2 ways

When you choose the Deerma DX900, you actually get 2 devices in 1. You will successfully use the product as an upright or handheld vacuum cleaner. This way you can easily get to any place you want to clean. With this multifunctional device you will vacuum not only floors, but also armchairs, mattresses, curtains, shelves, countertops and even keyboards. With the Deerma DX900, your possibilities are

almost limitless.

Swap brushes to optimize its performance

In the package, you'll find 2 brushes that you can easily swap out to adapt the DX900's performance to the type of surface you want to vacuum. The floor brush is extremely versatile - it's suitable for cleaning panels, carpets, rugs and tiles, among others. The flat brush, on the other hand, is ideal for narrow, hard-to-reach areas. With its help you can vacuum, for example, curtains or a laptop keyboard.

Vacuum and enjoy the silence

The device is equipped with a motor that stands out for its high efficiency. It provides impressive suction power to get rid of waste in no time. At the same time, the vacuum cleaner is incredibly quiet. It has been designed to effectively reduce noise. So, using the Deerma DX900, you can enjoy efficient yet quiet vacuuming.

It will delight you with the comfort of use

The vacuum cleaner is small and lightweight. Using it is therefore extremely comfortable and fatigue-free. A special handle allows you to conveniently roll up and store the cable, making it easier for you to keep things in order. The housing of the device is made of durable ABS plastic, which provides it with wear resistance and unparalleled durability. This functional and handy vacuum cleaner will serve you perfectly for a long time.
