

USB-C to Lightning cable Dudao L5Pro PD 45W, 1m (gray)

USB-C to Lightning cable Dudao L5Pro PD 45W, 1m (gray)

Ref: 6970379617151

Reliability and functionality for your devices

The L5Pro USB Type C to Lightning cable is an excellent choice for users of devices with a Lightning port who are looking for fast and efficient charging. The high-quality cable allows you to connect devices with a Lightning port, such as smartphones and tablets, to power adapters and chargers with a USB Type-C port. The maximum output power of 45 watts allows you to quickly charge your devices' batteries, ensuring efficient charging even in a short period of time.

Smart charging according to your needs

The L5Pro cable supports Power Delivery (PD) technology, which means the charging current is intelligently adjusted to the needs of the connected device. This ensures that your devices are charged optimally and safely. In addition, the cable allows data transfer. The cable is 1 meter long, providing convenience of use and flexibility when charging your devices. The gray color gives it a modern look and blends well with different styles and accessories. It is a reliable and functional solution for all owners of devices with a Lightning port, who expect fast and efficient charging of their devices.
